

Joining the Partnership Team of

Will You Join the Edserv Partnership Team?

The express purpose of Edserv International is to provide Christian educational services, particularly teacher training, without political boundaries or the ability to pay being the primary determinative factors. For this to happen, from January 2009 we will need an ongoing prayer and financial partnership with Christian friends and colleagues around the world

- who understand the strategic importance of Christian schooling,
- who will help us through prayer and financial support,
- and who are led to share Christian education insights and expertise that the Lord has entrusted to the developed world with our brothers and sisters in more financially disadvantaged areas

We are praying for a partnership team of 70 committed individuals/groups who will team with us in this enterprise—partners who feel able to support Edserv in prayer and by one-off support and/or regular giving of between AUD\$50 and \$150 per month. Please commit this matter to prayer. Then, save this form to your desktop, fill it in, and email it as an attachment back to us at admin@edservinternational.org to activate your partnership with us in Edserv International. Alternatively, you can print, complete and post the form back to us at the address below.
